GitHub: https://github.com/Samer-Balee

Portfolio: https://samer-balee.github.io/My-Initial-Portfolio/

_____

Education:
Current student at University of Sydney / Web Development Bootcamp.

Previous Education:
. Bachelor degree in Chemical Engineering / University of Baghdad.

. Statement of Attainment in Electrotechnology / Course at TAFE NSW.

_____

Languages and Technologies:

. HTML	**. Git**
. CSS	**. Bootstrap**
. JavaScript	**. APIs**
. JQuery	

_____

Skills:
. Build a front end website either from scratch or by utilizing a front end framework (such as Bootstrap).

. Deploy static and dynamic websites to the cloud.

. Implement complex logical conditions to meet an objective.

. Work independently or in a group on complex projects throughout the entire development lifecycle.

. Expertly navigate the file system and terminal basics.

Projects/Assignments:

1- Project 1 (DateNight)

Worked with a group to deploy an app that helps a nervous person to schedule   his date and get a direction, knows the weather on that date, clothes, drinks, joke and quote suggestions.

Technologies used:

. HTML   . Git

. CSS   . Bootstrap

. JavaScript   . APIs

. JQuery   . MomentJs

Link to deployed app: https://samer-balee.github.io/DateNight-Project1/

GitHub link: https://github.com/Samer-Balee/DateNight-Project1

2- Code Quiz

Building a timed code quiz with multiple-choice questions. This app will run in the browser and will feature dynamically updated HTML and CSS powered by JavaScript code that I write.

Technologies used:

. HTML   . CSS

. JavaScript   . Git

Link to deployed app: https://samer-balee.github.io/JavaScript-Code-Quiz/

GitHub link: https://github.com/Samer-Balee/JavaScript-Code-Quiz

3- Work Day Planner

Deploying a daily planner so that an employee with a busy schedule can add important events to it and he can manage his time effectively.

Technologies used:

. HTML   . Git

. CSS   . Bootstrap

. JavaScript

. JQuery

Link to deployed app: https://samer-balee.github.io/Work-Day-Planner/
